SUMMARY

I'm a BCA student who enjoys creating websites and working with data. I know languages like HTML, CSS, JavaScript, C, C++, and Java, and I've also worked with tools like Excel, Power BI, and Python for data analysis. I love learning new things and using my skills to build useful and creative projects.

INTERESTS & HOBBIES

- Web development
- Data visualization and analytics
- Music and Singing

● EDUCATION

Guru Gobind Singh Inderaprastha University(Pursuing)
Bachelor's in Computer Applications

S.D Public School (2023)

12th , CBSE Board (Science "PCM")

● SKILLS

Data Analysis: Power BI, Advanced Excel, Data Science

Technical: Programing language basics (Java,C,C++,Python)

Web Development basics (Html,Css, Javascript)

Soft Skills: Creativity, Attention to detail, Teamwork

● PROJECTS

Data Science Project: COVID-19 Analysis - Analyzed COVID-19 data to identify trends, patterns, and insights using data visualization and statistical techniques.

Amazon Clone (Web Dev Project) : Developed an Amazon homepage clone using HTML and CSS, replicating its layout, design elements, and responsiveness.

● TRAININGS AND ACHIEVEMENTS

Power BI - Institute of Innovation in Technology And Management (July, 2024)

Advanced Excel - Institute of Innovation in Technology And Management (Jan, 2025)
